# Coffee Beans

## Green Coffee Beans

Arabica & Robusta: all grades available, packing in bulk.

## Roasted Coffee Beans

Arabica and Robusta: all grades available. Packing in 500gm pouches or bulk bags. We offer all kinds of roast. Blends available: 100% coffee, Arabica & Robusta and mixes such as 60:40, 70:30, and more.

# Instant Coffee

## Freeze Dried Coffee

Our Instant Freeze Dried Coffee beats the heat! The low-temperature drying process helps retain excellent taste, with rich aroma and no bitterness. It can be enjoyed hot or cold, as it dissolves easily in water and/or milk, replicating a fresh brew experience.

- **68:32 Arabica-Robusta Blend**
- **100% Pure Coffee**

## Agglomerated Coffee

Agglomerated soluble coffee sits somewhere between spray-dried and freeze-dried. It is produced using the spray drying method, where fine particles are then gathered into larger particles through a re-hydration process. This gives a more visually appealing product with noticeably better solubility.

- **85:15 Robusta-Arabica Blend**
- **100% Pure Coffee**

## Spray Dried Coffee

Unlike Freeze Dried Coffee, Spray Dried coffee is dried at higher temperatures. This lets us offer very cost-effective products to our customers.

- **100% Pure Coffee**
- **70:30 Coffee-Chicory Blend**
- **60:40 Coffee-Chicory Blend**
- **53:47 Coffee-Chicory Blend**
